# A smarter way to hire:

**Temp-to-perm staffing** gives you the best of both worlds: speed and flexibility plus the potential for a long-term hire who already knows your workflow.

## Why temp-to-perm works:

### 1. Try before you hire

Gives first-hand insights into work ethic, clinical skills and cultural fit.

### 2. Reduce hiring risk

In uncertain times, making a confident, informed hire is more important than ever.

### 3. Faster onboarding

A temp needs little onboarding if hired permanently, or can stay on while a new hire is trained.

### 4. Flexible commitment

Stay agile while still moving toward long-term staffing stability.

### Conversion clause

Our contracts have a conversion clause that allows you to convert our dietitian to your team permanently, if it's a good fit for both parties. Fees vary based on contract terms.

DIETITIANS ON DEMAND

**Contact your Regional Account Manager to learn about the conversion details associated with your contract.**
